## OUR CAMPING TRIP

The text is about our camping trip. On Tuesday morning we had breakfast at the camping place. After breakfast we took down our tents and cleared up our spot. At 12am we went back by canoe. On the way back we went through a tunnel which made us faster. It was hard to paddle against the current. When we arrived in Konstanz we had to take the canoes back and catch the train. We arrived in Weinfelden at 3pm.

## Canoe trip Monday, 31.7.2020

After we met in Weinfelden, we went with the train to Konstanz. There we got the canoes and put them into the water. In groups of 3 and 4 we drove around the Reichenau with our canoes. We had six canoes together. Our lunch we had at the campsite Sandseele. In the later afternoon we arrived in Hegel at the campsite. We build up our tents, ate dinner, had free time and at 10 o'clock we got in our tents.

## Evening:

Before we ate dinner we ranked the tents. We learned that many tents are not so easy to rank. After this challenge we had free time. We went swimming in the lake or walking around the campground. Then we ate dinner. After we had again some time for us. Many of us went to the playground or to the lake. It was very funny. We laughed and talked until it was sleep. When it was sleep we went in our tents. Perhaps you already heard the story that some isolated torch-lights found there way out of the tents to a hidden place.

SPECIAL WEEK

DAY TWO

After a night with not very much sleep we woke up and ate breakfast, in a little cabin next to our tents. We packed our stuff and took down the tents. Then we made the groups to drive back. We drove thru a canal with our kanus. It was stronger because of the currents from the river. After a long drive we finally arrived. We pushed our boat back to the spot where we got 'em from, ~~and~~ took the train and drove back.
