

## The Character Rose

Rose was a girl of seventeen, whose beauty and gentle charm won all hearts. She took care of Oliver when he was chased while he was walking on a farmer's property where he shouldn't have been. Nancy wanted to see Rose to tell her that she was the person who kidnapped Oliver, and about the conversation between Monks and Fagin. Rose's sister Agnes Fleming was Oliver's mother.

One hot summer evening, after a walk in the country, Rose became very weak and pale, and confessed she felt ill. The next morning she was suffering from dangerous fever, and Oliver and Mrs Maylie were afraid she might die. Every day she felt sicker and sicker. The son of Mrs Maylie (Harry) was clearly very fond of Rose. Harry waited a few days, then, as his mother had expected, he asked Rose to marry him. And as his mother had warned him, Rose refused. She refused because of her past. It could destroy Harry's future. A few months later when Rose was getting better, Harry asked her again to marry him and she said yes. The couple changed country and lived happily ever after.
